

## New PCB Metabolites & Hydroxy-Chlorobiphenyls

### Methylsulfonyl PCB congeners

### Hydroxy-Chlorobiphenyls

All Products Produced & Tested under ISO 9001:2000 and ISO 17025 Quality System

An important group of persistent PCB metabolites, the methylsulfonyl PCBs (MeSO<sub>2</sub>-PCBs) have been added to our products. Only the 3- and 4-MeSO<sub>2</sub>-PCBs with chlorine atoms in the 2,5- or 2,3,6-position have been found in environmental samples, and therefore only those are offered by AccuStandard.
